Grund- och avancerad utbildning

Kursansvarig: Anders Persson  
Antal studenter: 10  
Betyg: 6 Fail (U), 3 Pass (G), 1 Pass  
w distinction (VG). 5 Pass (G), 1  
Pass w distinction (VG) at re-exam  
Sammanställt av: Anders Persson

## **Course analysis BIOR17 Limnology, autumn 2019**

### **Summary of the course evaluation**

Number of answers: 3. Overall the students were very pleased with the course (grade 4) and appreciated the mixture between theory and practice. However, few responded so difficult to assess.

### **Comments from the teachers team**

The teachers on the course considered that the relatively low number of students made it more difficult to complete all field parts.

### **Evaluation of changes made since the previous course**

Some lectures were altered, but it was not possible to evaluate from responses.

### **Suggested changes for the next course**

Due to the loss of the Aneboda Field station, we will do daily excursions to local lakes and streams instead.

### **Other teachers**

Johanna Sjöstedt, Karin Rengefors, Christer Brönmark
